GAME TRAILER

ABOUT THE GAME

Saudi Rise is a 2D physics puzzle game where the player uses balloons to lift a crate or platform and guide it safely toward the finish line.

- **Theme:** Each stage is inspired by a Saudi city and its culture.
- **Player Goal:** Attach enough balloons, avoid obstacles, and reach the finish line.
- **Feel:** Light, fun, colorful, and easy to understand with increasing challenge.

Game Identity

- Saudi city journey
- Balloon-lift physics
- Pixel-art / arcade-inspired UI

CORE GAMEPLAY LOOP

1 Attach

Drag balloons and connect them to the bar or box.

2 Lift

Balloons create upward force and move the object.

3 Balance

Control timing and placement to keep the box stable.

4 Reach

Guide the box to the finish line before losing balloons.

Player Interaction

- Simple touch or mouse-based dragging.
- Physics makes every balloon placement matter.
- Short levels encourage quick retry and experimentation.

win & Lose

1 STAR

★ ☆ ☆

Level completed with the minimum required balloons. Continue, but replay is encouraged.

2 STARS

★ ★ ☆

A better finish with stronger control, fewer mistakes, and a cleaner route to the line.

3 STARS

★ ★ ★

Best performance: stable lift, safe path, and more balloons remaining at the finish.

Completion Flow

Finish Line → Star Result → Retry or Next

Short levels, clear scoring, and fast restart give players a reason to replay and improve their result.

win & Lose

LOSE

- All balloons pop or leave the safe area.
- The box fails to reach the line.
- Restart is shown immediately.

ART & ELEMENT DESIGN

Visual Direction

- Bright Saudi landscapes mixed with playful pixel-style UI.
- Each level has custom balloons, bars, boxes, hazards, and background art.
- The map screen presents the journey across different Saudi city themes.

UI & INTERACTIONS

Menu Behavior

- **Options:** Back, restart, and exit buttons are easy to reach.
- **Sound:** Music slider and mute button control the game audio.
